Full Professional Proficiency

## WORK EXPERIENCE

### Senior Software Engineer

#### LTIMindtree

09/2021 - Present

##### Project

- Worked on the codeless-driven solution for a wide array of the web application platform. The solution establishes End to End functional and non-functional checks and helps in 0% new functional maintenance effort and platform agnostic.
- Core development team member for building a custom responsive web application. Enabled application performance assessment and end-to-end Tuning and Design /Review.
- Manage incidents, defects, enhancement, and change requests ensure quality deliverables involve testing, and code review. Handles client calls, status reporting and escalation.
- Having 1+ years of experience in working closely with lead architect and client representative to understand schematic design and provide time estimation for development and testing

## EDUCATION

### B.Tech

#### Jaipur Engineering College and Research Centre

08/2017 - 08/2021

71.36

### XII

#### Jaipuria Vidyalaya

04/2015 - 03/2016

76.40

## PERSONAL PROJECTS

### Personal Portfolio

- <https://github.com/Naman-Sogani/portfolio>
- This project is hosted on Google Firebase and was built by using the concepts of React, MUI, and other libraries like ityped and also used Google Firestore for the database.
- It showcases all the details like skills acquired, projects- links, contact information, resume-download, LinkedIn, and GitHub links.

### E-Commerce Website

- <https://github.com/Naman-Sogani/amazon-clone>
- This project is built using the concepts of React, React hooks, Material UI, etc.
- Features like add to basket, proceed to the checkout page, create an account, login-logout functionality, etc.

### Snake Game

- <https://github.com/Naman-Sogani/my-app>
- It is an arcade game that involves a snake moving inside a box. Your score increases based on how much fruit the snake eats.
- It was built by applying the concepts of React, React-redux, redux-saga, TypeScript chakra UI, etc.
